4.) HEALTH HAZARDS IDENTIFICATION (Keep out of reach of Children!)

Potential Health Effects – Skin:

Nuisance particles may cause skin irritation.

Potential Health Effects – Eyes

Nuisance particles may cause eye irritation.

Potential Health Effects – Inhalation

Gross overexposure to nuisance particles, regardless of how generated, may cause irritation of the respiratory tract. If affected by inhalation, remove effected person from affected area into area with "fresh air". If effected person has difficulty breathing, consult physician immediately.

5.) FIRST AID INFORMATION

Skin – Wash affected skin areas with mild soap & water. Consult physician if skin irritation persists past 24 hours.

Eyes – Flush eyes with copious amounts of water for at least 15 minutes. Consult physician in all cases of eye contact.

Inhalation – Move affected person to an area with "fresh air". If person affected has difficulty breathing, administer oxygen or provide artificial respiration and contact physician or medical facility immediately.

Ingestion – Ingestion of small quantity of this material will not cause harmful side effects.

6.) REACTIVITY INFORMATION

Stability/Incompatibility – Stable, avoid contact with strong acids and oxidizing agents.

Hazardous Reactions/Decomposition Products – Some organic ester may be generated by decomposing of the polymer and may contain methacrylates. Other decomposition products include carbon monoxide and organic acids, aldehydes and alcohol.

Hazardous Polymerization – Will not occur.

7.) SPILL or LEAK PROCEDURE INFORMATION

Spill or Leak Procedure – Sweep up carefully to prevent slipping hazard.

8.) SPECIAL PROTECTION INFORMATION

Eye Protection – Personal Protection Equipment (PPE). Users of this material are required to wear eye protection.

Skin Protection – Personal Protection Equipment (PPE). Users should wear protective gloves during standard dental procedures for infections control purposes (not necessarily associated with this product).

Respiratory Protection – Personal Protection Equipment (PPE). None is required if user is working in well-ventilated area that is in normal working condition.

9.) STORAGE & HANDLING EQUIPMENT

Handling - Avoid exposing this material to temperatures above 299°C (570°F)

Storage – Observe all label precautions. Minimum: no light, Maximum: Ambient light. Store this container in a moisture-free, dry area. Keep the container's lid on securely to prevent moisture contamination.
