

**Material Safety Data Sheet**  
**HENRY SCHEIN® HTC Developer Concentrate**  
**MSDS # 27280D-60**

**SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION**

**Revision Date:** 1/17/00  
**Trade Name:** HENRY SCHEIN® HTC Developer Concentrate  
**Chemical Name:** Aqueous mixture, see below.  
**Synonyms:** None  
**Formula:** Mixture, see below.  
**Product ID/Catalog Numbers:** 27280D-60  
**Distributed By:** Henry Schein, Inc.  
135 Duryea Road  
Melville, NY 11747

**TRANSPORTATION EMERGENCIES (24 Hrs.):** CHEMTREC (800) 424-9300  
**GENERAL INFORMATION:** (800) 472-4346

**SECTION 2 - COMPOSITION / INFORMATION ON INGREDIENTS**

Components	CAS Number	% By Weight	OSHA 8-Hour		ACGIH TLV	
			ppm	mg/m3	ppm	mg/m3
Potassium Hydroxide	1310-58-3	<1	-----	2 Ceiling	-----	2 Ceiling
Sodium Sulfite	7757-83-7	5-10	-----	15	-----	10
Potassium Sulfite	10117-38-1	10-15	-----	15	-----	10
Sodium Carbonate	497-19-8	1-5	NE	NE	NE	NE
Hydroquinone	123-31-9	1-5	-----	2	-----	2
Water	7732-18-5	60-65	NE	NE	NE	NE

NE = Not Established

**SECTION 3 - HAZARDS IDENTIFICATION**

**Potential Health Effects**

**Skin:** Causes skin irritation. May cause allergic skin reaction.  
**Eyes:** Causes eye irritation and possible burns.  
**Inhalation:** Low hazard; however, toxic or irritating gases (sulfur dioxide) may be produced in fire conditions or if mixed with acids.  
**Ingestion:** Irritating to gastrointestinal tract. May cause vomiting and diarrhea. Some asthmatics or sulfite sensitive individuals may experience wheezing, chest tightness, hives, weakness and diarrhea following ingestion.

**Conditions aggravated by overexposure:** Skin sensitivity and some pre-existing respiratory conditions such as asthma (if irritating gases are produced in fire conditions or if mixed with acids).

**Carcinogenicity:** Are any ingredients listed as carcinogens? IARC? No NTP? No OSHA? No  
(See Section 11 for Toxicological Information)

**SECTION 4 - FIRST AID MEASURES**

**Eye Contact:** Hold eyelids apart and immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.  
**Skin Contact:** Immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if skin irritation or an allergic skin reaction develops. Thoroughly wash (or discard) clothing and shoes before reuse.  
**Inhalation:** If contamination by an acid source causes gas or vapor to develop which irritates the nose or throat, move to fresh air. If breathing is difficult, get immediate medical attention. If not breathing, have trained personnel give oxygen or administer CPR. Get immediate medical attention. Clear the work area of vapors before returning to work.

# Material Safety Data Sheet

## HENRY SCHEIN® HTC Developer Concentrate

MSDS # 27280D-60

**Ingestion:** If swallowed, do not induce vomiting. Call a physician (or Poison Control Center) immediately. Never give anything by mouth to an unconscious person.

### SECTION 5- FIRE FIGHTING MEASURES

<b>Flammable Properties</b>	Non-flammable water based solution.
<b>Flash Point:</b>	None
<b>Test Method:</b>	N/A
<b>Lower Flammable Limit:</b>	N/A
<b>Upper Flammable Limit:</b>	N/A
<b>Autoignition Temp.:</b>	N/A
<b>Extinguishing Media:</b>	Use existing media appropriate for surrounding materials.
<b>Fire Fighting Instructions:</b>	Use normal fire fighting procedures including full protective gear and approved self contained breathing apparatus.

May produce toxic gases if mixed with strong acids or in fire conditions (Carbon dioxide, carbon monoxide, oxides of sulfur).

N/A = Not Applicable

### SECTION 6- ACCIDENTAL RELEASE

Isolate hazard area and limit entry only to authorized, protected personnel. Wear appropriate protective clothing. For small incidental spills and leaks, wear chemical safety goggles, and neoprene or nitrile gloves, and apron or coveralls. For larger spills requiring emergency response, neoprene boots and respiratory protection may also be required. Follow OSHA regulations and NIOSH recommendations for respiratory protection (see 29 CFR 1910.134 and NIOSH pub 87-108) and emergency response (see 29 CFR 1910.120). Hold in properly labeled DOT approved waste container. Dike large spills to minimize the spill area. Material can cause environmental damage. Prevent material from contaminating soil or entering sewer or waterways.

### SECTION 7- HANDLING AND STORAGE

**Handling:** Do not get in eyes, on skin or clothing. Avoid inhalation exposure, use with adequate ventilation. (See Section 8 for Personal Protection.) Wash thoroughly after handling. Do not eat, drink or smoke in work area.

**Storage:** Keep container tightly closed. Store in a cool, dry, well ventilated area. Store and ship above 40°F (5°C) and below 100°F (40°C). Optimum storage temperature 68°F (20°C).

### SECTION 8- PERSONAL PROTECTION

<b>Ventilation:</b>	Vent work area to ensure airborne concentrations are below the current occupational exposure limits.
<b>Respiratory Protection:</b>	With properly vented facility, a respirator is not required under typical use. (See Section 6 for Procedures regarding accidental release.
<b>Eye Protection:</b>	Wear chemical splash goggles for all handling operations. Have emergency eye wash equipment easily accessible that provides at least 15 minutes of running water. (See ANSI specification Z358.1-1990.)
<b>Skin Protection:</b>	Wear appropriate protective clothing, including a chemical resistant apron and gloves such as vinyl, neoprene or nitrile.

### SECTION 9- PHYSICAL AND CHEMICAL PROPERTIES

<b>Appearance/Odor:</b>	Pale yellow, clear liquid, slight odor
<b>Specific Gravity:</b>	1.23
<b>Solubility in Water (20 C):</b>	Complete
<b>pH:</b>	11.0

# Material Safety Data Sheet

## HENRY SCHEIN® HTC Developer Concentrate

### MSDS # 27280D-60

Boiling Point: >212°F  
Percent Volatile by Weight: 60%  
Vapor Pressure (mm Hg): 17.0

#### SECTION 10- STABILITY / REACTIVITY

Stability: Material is stable except when exposed to excessive heat.  
Incompatibility: Avoid contact with strong acids.  
Hazardous Decomposition Products: SO<sub>x</sub>  
Polymerization: Will not occur.

#### SECTION 11- TOXICOLOGICAL INFORMATION

##### Product Toxicology Data

Acute Oral LD50: No data.  
Skin: Moderate skin irritant.  
Eyes: Moderate eye irritant.  
Skin: Skin sensitizer.

##### Pure Component Toxicology Information

Hydroquinone: Moderately toxic by oral ingestion. It is a skin and eye irritant and may cause an allergic skin reaction in sensitive individuals. Hydroquinone also may cause brown staining of the conjunctiva following prolonged direct eye contact with the solid and may depigment the skin following repeated skin contact under some circumstances. Hydroquinone is a central nervous system stimulant based on animal studies. Although hydroquinone is not a listed human carcinogen, it has caused cancer in some animal studies. It does not cause adverse reproductive effects when administered at dose levels not causing systemic toxicity in the mother.

Sodium Sulfite & Potassium Sulfite: Slightly toxic by oral ingestion. Contact may cause irritation of the eyes, skin and respiratory tract. Ingestion may result in severe gastric irritation. Exposures to small amounts of sulfites have been reported to cause hypersensitivity reactions in certain susceptible individuals, especially asthmatics. Symptoms may include hives, respiratory distress, flushing, GI disturbances and contact dermatitis. Severe cases may result in respiratory arrest, unconsciousness or coma.  
There are no known chronic effects associated with this material.

Sodium Carbonate: Slightly toxic by oral ingestion. If ingested, may irritate mouth, esophagus, stomach, etc. It is a moderate to strong skin, eye, and respiratory tract irritant

#### SECTION 12- DISPOSAL CONSIDERATIONS

Do not discharge to septic system. Discharging this material to the sewer may require a permit. Product should be disposed of in accordance with federal (40 CFR part 261), state and local regulations. Before attempting cleanup, refer to hazard information and protective measures (chemical gloves, etc.)

#### SECTION 13- ECOLOGICAL INFORMATION

# Material Safety Data Sheet

## HENRY SCHEIN® HTC Developer Concentrate

MSDS # 27280D-60

Although Hydroquinone is toxic to aquatic life, it is likely to degrade rapidly in water and in soil, and is not expected to bioaccumulate in fish or aquatic organisms. Do not dispose of in waterways.

### SECTION 14- TRANSPORTATION INFORMATION

Regulated by U.S. Department of Transportation? No

Proper Shipping Name: Chemical, N.O.I.  
U.N. Identification Number: None  
Hazard Class: None  
Packing Group: None  
Limited Quantity Packaging: Not applicable

Label Required (Air shipments): None

### SECTION 15- REGULATORY INFORMATION

#### OSHA:

This product is subject to the Hazard Communication Rule, 29 CFR, 1910.1200.

#### CERCLA HAZARDOUS SUBSTANCE (40 CFR 302):

Hydroquinone - Reportable Quantity = 100 lbs.

#### SARA Title III:

Superfund Amendments and Reauthorization Act of 1986 (SARA Title III) requires submission of annual reports of releases of toxic chemicals that appear in 40 CFR 372 (for SARA 313).

**SARA Hazard Categories:** Immediate and Delayed. (See Section 3, Potential health effects.) Component present in this product at a level which could require reporting under the statute: Hydroquinone.

#### EPA TSCA Requirements:

All ingredients comply with EPA TSCA requirements.

### SECTION 16- OTHER INFORMATION

**Hazard Ratings:** Degree of hazard (0= low, 4= extreme)

#### National Fire Protection Association (NFPA)

Health: 2      Flammability: 0      Reactivity: 0      Specific Hazard: None

#### Hazardous Materials Information System (HMIS)

Health: 2      Flammability: 0      Reactivity: 0      Protective Equipment: B

**NOTE:** NFPA and HMIS ratings are intended to permit speedy general identification of the extent of particular acute hazards.

These hazard ratings involve interpretations of data that may vary between companies. All of the information contained in this MSDS must be considered in order to correctly address the safe handling of this product.

To the best of our knowledge, the information contained herein is accurate. However, the manufacturer does not assume any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
